REGULATIONS GOVERNING THE COMPUTATION OF DIVIDENDS

1. Any Totalisator Club may operate in accordance with any system authorised by these Regulations, not more than two separate pools on different Totalisators, or parts of a Totalisator, in respect of any race for which the Totalisator may be lawfully opened.
2. If the number allotted on the Totalisator shall be four or less the dividend shall be paid on the first horse only.
3. Any such Club may, in respect of any race in which the numbers allotted on the Totalisator shall exceed four, operate two pools in which case it shall pay on one of such pools a dividend on the first horse only and on the other pool (hereinafter referred to as "the place pool") dividends computed in accordance with Regulation 4 hereof.
4. In respect of the Place Pool the following provisions shall apply: (a) The amount available for payment of dividends on the Place Pool shall be divided into as many equal parts as there are horses placed in the dividend bearing places and each such part shall be divided among the investors on one of such horses, notwithstanding that by reason of any dead heat or dead heats, the number of such horses shall exceed the number of dividend bearing places; (b) For the purposes of this regulation horses included in the same bracket and filling dividend bearing places, shall be reckoned separately and the sum to be divided among the investors on such bracket shall be the sum of the several amounts allotted to each of such horses; (c) In computing dividends no account shall be taken of any horse on which no tickets shall have been taken and in such case the pool shall be divided into as many equal parts as there are horses, on which tickets have been taken, in dividend bearing places. Provided that where the dividend bearing places are first and second only, and by reason of the operation of this condition there is left in those places not more than one horse in respect of which a dividend can be computed a horse or dead-heating horses placed third shall be deemed to be in a dividend bearing place, save that nothing in this proviso shall operate to allot for division between such dead-heating horses any greater share of the pool than the amount that would be allotted to one horse running third, (d) The dividend bearing places shall be (i) Where there are five, six or seven numbers allotted on the Totalisator, first and second places. (ii) Where there are eight or more numbers allotted on the Totalisator, first, second and third places. (iii) Where in respect of a race in divisions the Totalisator is opened once only, first and second place in each division.
5. If in any pool the dividend is to be paid on the first horse only, then (1) The whole of the amount available shall be divided among the investors on the horse or horses placed first. (2) If no ticket shall be taken on the horse or horses placed first the next placed horse on which tickets have been taken being not further back than third shall be deemed for dividend computing purposes to be the first horse.
6. If any Club shall operate more than one pool the following conditions shall apply: (1) Investments shall be received separately for each pool. (2) All pools shall be closed simultaneously and (3) Each pool shall both as to investments on the several horses and the total investments be kept separate and distinct.
7. If in respect of any pool there shall be no horses in respect of which a dividend computed in accordance with these Regulations, can be paid, or unless the race is to be trotted again, if the race shall be declared void, the amount paid for each ticket, less the amount required or permitted by law to be deducted therefrom, shall be refunded.
